

2022 BOD CANDIDATES

FIVE (5) SEATS AVAILABLE

Lisa Koker,
CTC/CWC

I have lived with my family in Cordova for over 12 years and have served on the Chamber's board for the last six years, two as board president. I feel strongly about our local economy and supporting Cordova's businesses. I believe that my experience in small business management and finance has proven beneficial to the Chamber and am excited for the opportunity to continue giving back to our community in this way. As a representative of Cordova Telecom Cooperative and Cordova Wireless, I am eager to develop new ways to encourage and support fellow small businesses in Cordova.

Bryan Mills,
CDV Tech Guy

I moved to Cordova in 2014, and I loved it right away. Since then, I've grown my tech support and computer service business to help individuals, businesses, and nonprofits with their tech needs. The Chamber brings significant benefits to the entire Cordova community, and as a small business owner, serving on the board has shown me how vital the work is. I'm proud to be running for an additional term on the board because I believe that it's a great way to give back to the community. I enjoy being part of an organization that focuses so much on making life better for everyone in the place I love to call home.

Stephen Phillips,
CDV Surveys

I've lived in Cordova my whole life, minus some time for college and career work. My business, CDV Surveys, works primarily with the fishing industry but all of Cordova is my customer base. I've sat on several boards in the last 8 years, and bring to the table knowledge of parliament procedure and business continuity. I'm currently board president for the Chamber and in my tenure on the board, I feel I still have some resources and time to offer the organization and thus, in turn, the community.

Nelly Hand,
Drifters Fish

I was born in Cordova and grew up spending every summer fishing with my family in Prince William Sound. Cordova's been a big part of my life, every year revolving around seasonally migrating here to catch salmon. I've recently made Cordova my year round home and feel lucky to be rooted here. I own and operate a gillnetter, fishing the Copper River Delta and Prince William Sound districts. I also run a direct marketing company selling the fish I catch direct to consumers and chefs. I have experience working with the Copper River Prince William Sound Marketing Association and the Alaska Seafood Marketing Institute, sharing stories of Alaska's valuable fisheries and advocating wild seafood to consumers. I've been running my direct marketing business for 6 years. I'm looking forward to connecting with the business community of Cordova. I also look forward to being an advocate for the fishing community and representing the harvesters out there feeding people.

Jean DeBruler,
The Barn

I moved to Cordova in 1990, and have been doing business in Cordova since 1991. I have operated several businesses here including a restaurant and a CPA business which were both active with the Chamber and community events at the time. I am currently a Certified Public Accountant and operate a long-term rental in Cordova. I am interested in serving on the Cordova Chamber board of directors because I would like to be involved in the community and give something back.

**SEND IN YOUR BALLOTS BY FEBRUARY 7, 2022. RESULTS ANNOUNCED @
CHAMBER ANNUAL MEETING - FEBRUARY 8TH**
